

CALL FOR PROPOSALS

2020 Cycle Thematic Networks

The European Commission is inviting public health stakeholders to submit initiatives for a new cycle of Thematic Networks under the EU Health Policy Platform.

The purpose of a Thematic Network is to produce a Joint Statement within a year, summarising the common position of a group of stakeholder organisations on one of the following selected public health topics:

- Healthcare education and training, especially on digital skills of the health workforce; and
- Promotion of whole grain consumption.

Deadline
27/06/2019

Eligible applicants:

Proposals may be submitted by the following entities established in an EU Member State:

- *Public health stakeholders; and*
- *Stakeholders from other policy areas if stakeholders from other fields of public health present sound reasons for doing so.*

EaSI-PROGRESS: Supporting the Development of Tailored Learning Provision in the Implementation of “Upskilling Pathways” - VP/2019/005

The specific objective of this call is to support the deployment of a tailored, flexible and quality learning offer for low-skilled / low-qualified adults.

In general, proposals must be centred around activities ensuring that the three Upskilling Pathways steps are available to low skilled and /or low qualified adults, including priority groups as defined by countries, where relevant. Therefore, skills assessment and mechanisms for validation of skills, appropriately linked to the tailored offer of learning, are essential to the design of the activities to be funded.

Deadline
08/07/2019

Eligible applicants:

Legal entities properly established and registered in the following countries are eligible as applicants:

- *EU Member States;*
- *Iceland and Norway in accordance with the EEA Agreement; and*
- *Albania, North Macedonia, Montenegro, Serbia and Turkey.*

More information: <https://etendering.ted.europa.eu/cft/cft-display.html?cftId=4752> (2019/S 105-254386)

European Cluster Collaboration Platform – EASME/2019/OP/0013

The objective of the contract to be concluded under this call for tenders is to promote the development of more world-class clusters in Europe, with a view to fostering the competitiveness, sustainability and resource-efficiency of enterprises, notably SMEs. It aims at intensifying cluster collaboration across regional and sectoral boundaries and facilitating SMEs' access to clusters and internationalisation activities.

Deadline
31/07/2019

The ultimate goal is to better connect clusters and ecosystems across Europe in order to accelerate industrial modernisation and boost entrepreneurship in emerging industries with growth potential. It will facilitate more strategic inter-regional collaboration and internationalisation activities of SMEs as well as the implementation of smart specialisation strategies and cluster policies by linking up and supporting cluster stakeholders across Europe.

Eligible applicants: All natural and legal persons coming within the scope of the Treaties

More information: <https://etendering.ted.europa.eu/cft/cft-display.html?cftId=4883> (2019/S 107-260330)

Support to the European Commission and Member States on EU ETS Monitoring, Reporting, Verification and Accreditation in 2020 and 2021 – CLIMA.C.2/SER/2019/0006

The objective is to provide support to the Commission and Member States in implementation of harmonised and cost-effective EU ETS Monitoring Reporting Verification and Accreditation (MRVA) in 2020 and 2021, including by:— identification and propositions for updates in the templates, guidance and tools provided by the Commission in support of Commission Implementing Regulation (EU) 2018/2067 (the EU ETS Monitoring and Reporting Regulation) and Commission Implementing Regulation (EU) 2018/2066 (the EU ETS Accreditation and Verification Regulation), in particular in relation to the updating for phase 4 of the EU ETS,— secretariat support to functioning of the EU ETS Compliance Forum in 2020 and 2021, building on the effective platform provided for discussion and cooperation between EU ETS Competent Authorities and the Commission; and promoting the well-functioning of EU ETS MRVA,— provide support in relation to ad hoc technical enquiries.

Deadline
08/08/2019

Eligible applicants: All natural and legal persons coming within the scope of the Treaties

More information: <https://etendering.ted.europa.eu/cft/cft-display.html?cftId=4964> (2019/S 113-276213)

Control of Radioactive Sources in the European Union – ENER/D3/2019-62

The objective of the study under this call for tenders is to monitor and evaluate Member States' activities for the implementation of the Euratom Basic Safety Standards (BSS) Directive requirements concerning the management of radioactive sources and the management of disused radioactive sources against the IAEA guidance. This evaluation shall facilitate the detection of problematic issues, an exchange of experiences and resolutions of the said issues, and the identification of good practices and areas for possible improvement.

Deadline
13/08/2019

The contractor shall evaluate the current radioactive source control measures, in particular the record keeping and security of high-activity sources, in all Member States and provide input for improvement and further harmonisation of these measures in the EU. The project shall also provide inventory data of radioactive sources in the EU and identify improvement needs in source management, in particular concerning disused sources. Results of the evaluation shall be disseminated to the EU Member States via a workshop and a guidance document on radioactive source management.

Eligible applicants: All natural and legal persons coming within the scope of the Treaties

More information: <https://etendering.ted.europa.eu/cft/cft-display.html?cftId=4866> (2019/S 107-260338)

Technical Assessment of Transport Fuel Quality Parameters – CLIMA.C.4/ETU/2019/0007

The Fuel Quality Directive ('FQD', Directive 98/70/EC) aims to ensure a high level of environmental and health protection in relation to fuel used in road transport as well as non-road mobile machinery by reducing pollution from the transport sector, and enhancing air quality. It also aims to enhance the functioning of the single market for transport fuels and vehicles by setting minimum standards for the quality of transport fuels and ensuring the technical compatibility of such fuel with internal combustion engines and after-treatments.

Deadline
16/08/2019

The study to be conducted under this call for tenders should identify Options for improving relevant provisions in the FQD, in particular in view of the linkages to RED II.

Eligible applicants: All natural and legal persons coming within the scope of the Treaties

More information: <https://etendering.ted.europa.eu/cft/cft-display.html?cftId=4985> (2019/S 112-274089)

Marine Equipment Directive (MED) Scientific and Technical Support, Including Support for the Operation of the MED Technical Secretariat – EMSA/OP/10/2019

The general objective of this call for tenders is to contract a study for the standardisation progress for the update of the technical provisions for the certification of marine equipment and management of the technical secretariat of MED notified bodies group.

The main objective of this contract is to provide EMSA with external technical expertise for being able to:

Deadline
29/08/2019

- Annually update the technical standards for the certification of the marine equipment as listed in the last MED Implementing Regulation (Annex I) and its potential enlargement with new equipment and/or standards;
- Update the technical standards for the certification of the marine equipment as listed in the last EU-USA MRA (Annex II) and its potential enlargement with new equipment and/or standards; and
- Assist MED stakeholders with technical and scientific advice for questions stemming from the implementation of the MED and providing support to the technical secretariat activities.

Eligible applicants: All natural and legal persons coming within the scope of the Treaties

More information: <https://etendering.ted.europa.eu/cft/cft-display.html?cftId=4896> (2019/S 106-257776)

Expert Network on Recognition of Outcomes of Learning Periods abroad in General Secondary Education – EAC/10/2019

The objective of this contract is to establish and support a Europe-wide network of experts and stakeholders on recognition of outcomes of learning periods abroad in general secondary education. In cooperation with the network, the contractor will:

- carry out a EU Member State analysis;
- develop guidelines and specific recommendations for the relevant stakeholders;
- develop the content to feed an online information site; and
- produce a model training programme for competence-based assessment of mobile pupils.

Deadline

05/09/2019

Eligible applicants: All natural and legal persons coming within the scope of the Treaties

More information: <https://etendering.ted.europa.eu/cft/cft-display.html?cftId=4893> (2019/S 106-257793)
